Metal samples and additional custom colors are available upon request. Please refer to the Stock Availability matrix for gauge, width, and paint finish availability.

Oil canning is an inherent part of light gauge cold-formed metal products and is not cause for coil, sheet, or panel rejection. Protective film must be removed immediately after installation. Color and sizes can change without notice. Additional sizes, gauges, and colors may be available, please contact your local sales representative for more information.

Colors represented on this electronic chart may not exactly match actual material. All colors should be verified using actual metal samples. Mismatch of electronic representations and actual material shall not be accepted as cause for rejection. Many finishes are production batch-specific and may result in slight variations in visual match. Do not mix or use materials purchased from separate sales orders on individual projects. Visual variation between separate order batches used on individual projects shall not constitute cause for rejection or claim.

MID-MICHIGAN METAL SALES

IMPORTANT INFORMATION BELOW. PLEASE READ!

Coil colors on this chart are ordered at exactly what we need to make your order. If you need more material to finish after the coil is ordered there is a $350 freight fee for each order. PLEASE MAKE SURE YOU ADD ENOUGH MATERIAL FOR INSTALLATION WASTE BEFORE PLACING AN ORDER.

ALL ORDERS FROM THIS CHART have a $350 coil freight fee and a minimum order of 500 lin ft for 16" wide panel widths and 750 lin ft for 12" wide panel widths.
