Oil canning is an inherent part of light gauge cold formed metal products and is not cause for coil, sheet or panel rejection. Protective film must be removed immediately after installation. Colors and sizes can change without notice. Additional sizes may be available, please contact your sales representative. Please contact our office for maintenance and cleaning procedures.

Product Description

Ultra-Clad pre-finished metal features Dura Coat Durapon 70% full strength PVDF paint finishes formulated with Cool technology. This high performance product provides the ultimate in resistance against fading and weathering. In addition to our standard colors, custom colors are also available upon request.

Color Samples

Colors shown represent the actual colors as accurate as modern printing technology will permit. Free metal samples are available upon request. Additional custom colors are also available upon request.
